

Wheel Handling - weightless & easy!

Movomech offers a complete solution for handling wheels

Now it's the end of awkward and heavy lifts when replacing tires!

Movomech concept for handling wheels makes it easy to change the tires and improves the working position for the operators.

All input operations - removal of existing wheels, unloading of wheel, loading of new wheel, and mounting the new wheel.

- Works quick and easy with the help of a well-balanced gripping tool and a smooth pneumatic light-lifter.

The pneumatic light-lifter Mechlight Pro is fast and easy to use, and shall be mounted in a rail system. Because it is completely free-rotated, the operator do not need to consider entangled hose.

The tool includes an air connector and a holder for the wrench. Also a cup for storing bolts. Optional accessories can easily be mounted on for optimization the workplace.

- ✓ *Lightweight*
- ✓ *Quick*
- ✓ *Free rotation*

Technical data

Max capacity	25 kg
Lifting speed	0-40 m/min
Rotation	0-360°
Max dead weight	<30 kg
Medium	Compressed air, non-lubricated
Working pressure	4-4.5 bar
Air consumption	300 l _n /min
Working temperature	5-40 °C
Noise level	< 70 dB (A)
